 Coil Coatings

Sherwin-Williams® is a trademark of SWIMC LLC.

- Final color selection should be made from actual color chips.
- Visit [www.unitedsteelsupply.com](http://www.unitedsteelsupply.com) for the most current information.
- A 40-year limited paint warranty is available for all colors upon written request. Please inquire. (Outside the continental United States, please inquire.)
- Solar Reflectivity (SR): Solar reflectivity or reflectance is the measure of a material's ability to reflect solar energy or sunlight from its surface. SR values are numbered 0 to 1.0. A value of 0 indicates that the surface absorbs all solar energy and a value of 1.0 indicates total reflectance.
- Solar Reflectance Index (SRI): The SRI is used to determine compliance with LEED requirements and is calculated according to ASTM E 1980 using values for reflectance and emissivity. To meet LEED requirements, a roofing material must have an SRI of 29 or greater for steep slope roofing and an SRI value of 78 or higher for low slope roofing. For more information, visit [www.usgbc.org](http://www.usgbc.org).
